## 5. Once you have received your login information, you can then see the prices and availability of all articles.

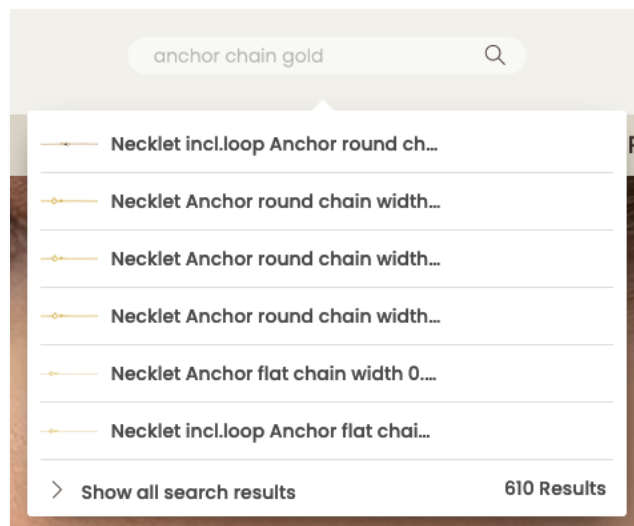

## Product search

There are 4 ways that you can search for products in the Webshop.

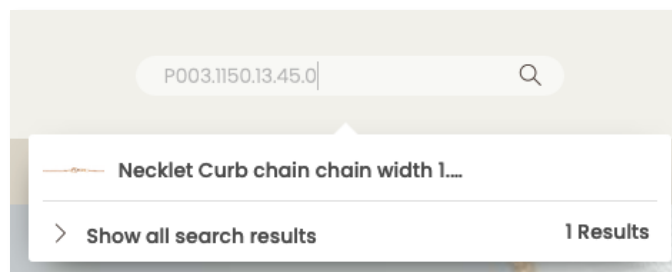

### 1. Search via the search bar

At the top of the website there is a search bar. Various search terms can be entered into it.

- a. Enter the chain type, associated properties such as length, material, etc.

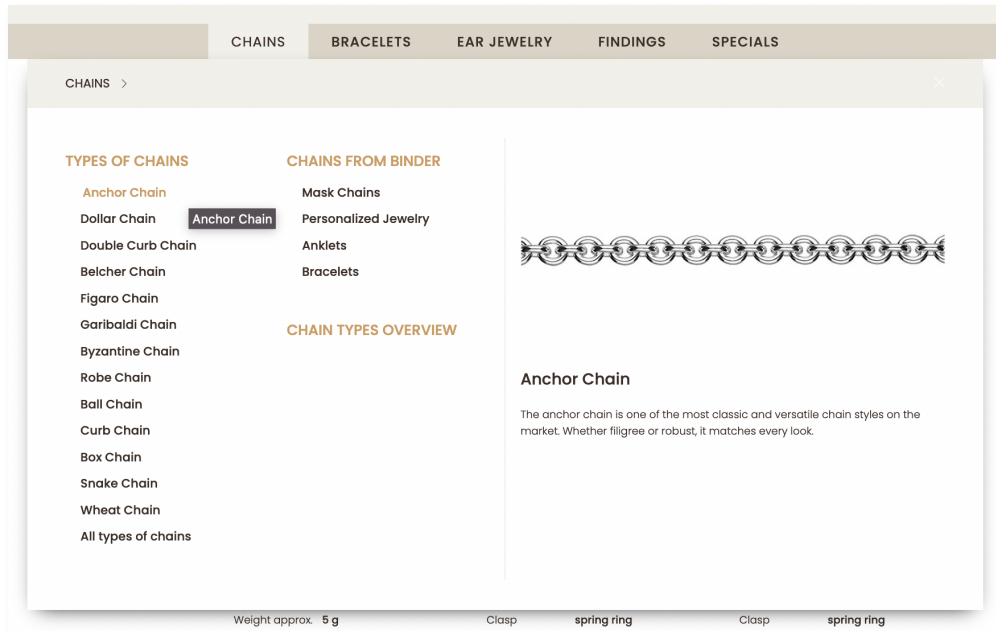

- b. Items can also be searched using the article number.

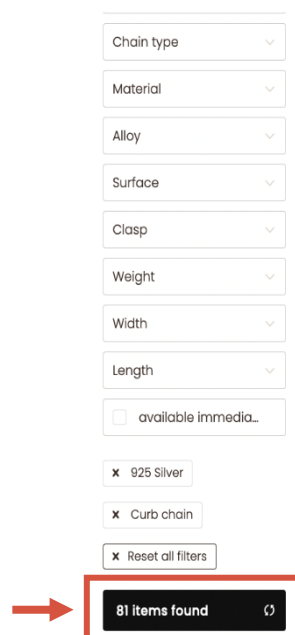

## 2. Article search via the menu structure

Select the category you are looking for and search the subcategories for the jewelry you are interested in.

## 3. Article search with the help of the filter function

In addition, the filter function of our store can always help. Simply enter the desired values, such as the chain type or alloy and then click on " XX items found".

## 4. Article search via the chain types overview

You can find the overview under the menu item 'Chains'. The menu structure opens and here you click on Chain types overview (bottom right).

## More useful tools

### 1. How to favorite an article

As soon as you have found an item you like, in the product overview, you can click on the heart button next to the add to cart button. Which will add the product to your wish list.

- a. The heart icon in the menu at the top of the screen will take you directly to your individual wish list.

- b. There you also have the possibility to create different lists within your wish list, for example for different months, to get a better overview of your possible orders.
